Features

Penahak Accounting offers a range of features designed to help businesses simplify their accounting and bookkeeping processes. You can easily manage your accounts and finances, track expenses, and generate financial reports. Our intelligent dashboard and live alerts allow you to set up live notifications for important financial events, ensuring that you stay informed about your business's financial health

Quick and easy invoicing

Effortlessly Send Invoices with Instant Access to Customer Details and Product/Service Information. With our intuitive system, simply select a customer, choose the products or services purchased, and swiftly send an invoice with ease.

Anywhere, anytime access

Take control of your business anytime, anywhere with just an internet connection and your preferred device—be it a laptop, tablet, or mobile phone. Stay connected and manage your operations with utmost convenience.

Get an overview of your business/Intelligent dashboard

Nothing is more important than knowing your business is on track. With customisable dashboards, gain instant insight into how your business is performing.

Alerts and Notification

Be aware of what's going on right now with your business and take appropriate actions

Analytical Reports

Drill down through 200+ financial reports to track, monitor, control and analyse for better decision making.

Inventory Management System

An advanced Inventory Management System designed to solve most issues at retail businesses and their wholesaling suppliers with one or many warehouses

Custom Email/SMS Notification

Improve your customer service experience in the styles of your chosen Custom Email/SMS and Notification.

Approval System

Use the approval workflow to ensure you've completed all the necessary steps on the checklist before committing to Quotation, Order, and Invoice

Batch/Serial No

Track with your inventory by batch and serial number

Additional features

IRD Approved

Stay compliant with tax regulations with our IRD-approved software.

Cloud or On-Prem Installation

Choose the option that best suits your business's needs.

Security

Role-based access control (RBAC), IP address whitelist access, and two-factor authentication for added security

"The software provides a seamless and intuitive setup experience with a logical navigation system. The dashboard can be customized to align with my unique business needs, while the quick view feature offers rapid access to critical data for designated customers, suppliers, items, and accounts."
